Related: BTS solo songs, albums: A guide to mixtapes, collaborations, Soundcloud releases and more Get inspired by these quotes from episode 1 of BTS's 'Bring The Soul: Docu-Series': I feel like I have a different mindset. For Wings we had fire in our blood and we had high dreams. I have to do this, and I have to do this. I need to make this happen, that sort of thing. That was the big thing. But now, I feel relaxed. I'm enjoying this moment. -- Jung Hoseok When it comes to a tour, doing something new and doing what you're used to doing is totally different. I think our Wings tour was the beginning. Of course, there were other excursions... Like The Red Bullet, but we were just getting started and still green. Now, everyone is firm. They handle things well without too many problems. Kim Seokjin I still get very nervous. It may not seem like this, but first it's the physical side that causes this anxiety. As I go through the first three numbers sets the tone for that day. That makes me very nervous. Kim Namjoon The worst thing is jet lag. I'm the worst at overcoming jet lag. Even if I work on it, I still have problems. Sleep. -- Min Yoongi Before a concert, I am am I'm going to do this right?, which hangs in my mind. People think that when we go on tour we can travel, eat food, perform. But there's another layer, a fight underneath. Min Yoongi Still, when I'm on stage, I can feel that I'm alive. Min Yoongi And the seven of us. Seeing the seven of us, tens of thousands of people have fun and go crazy. I still remember all the shows I went to when I was younger. Especially the performances I saw in my teens. I think it's something remarkable to be able to give people those good memories to cherish. -- Min Yoongi Acting at the Olympic Stadium, is a big deal and something to be proud of. And we know very well that not everyone has a chance like this. It means that more people have been interested in us, and more people have found out about us. -- Park Jimin The Typhoon Honestly, I was lost. So what do I need to do at the Olympic Stadium? I couldn't control it. The biggest thought I had was I need to keep the energy. I shouldn't make any mistakes. I need to go concert day to make up for it. That's what I thought to myself. Kim Taehyung We are performing in a great location. It's another level of scale. That's why I think it's hard. -- Kim Namjoon Our fans will be watching, many people will be watching. That's where we are and we need to show it. Through our actions, through our music, through our performance, something they can see and recognize. Make an effort to show ourselves to be consistent with where we are now. Jeon Jeongguk There's pressure. It's scary. It's scary going up. Because if we go up and fall, what will people say? But what can we do about it? We do what we can do now. For me, it was I want the first place. I didn't want to live my life hoping to be on top. -- Kim Namjoon Instead of being afraid of pressure, I need to stay true to myself, work hard to make albums and act hard. What else can we do? Kim Namjoon We cling to these dilemmas, uncertainties and imbalances, and we continue to create. That's what we should do. That's how we make a living. -- Kim Namjoon Our exhaustion and its emotion are directly proportional. The more tired, the more fun they have out there. Then we have no choice. We're going all the way. Kim Namjoon Before the song, we get in the elevator and go up. When they say, Going up now! I close my eyes, and when I'm awake, I open them. It makes me feel so good. I wasn't very good at it before. But now I think, what if there's no army here? What if it's not a full house? All right, let's find out. And I get goose bumps out of this world. Wow. It's electrifying like nothing else. That's when I feel like I'm alive. Right there. -- Kim Taehyung If I make a comparison, it seems to reboot a computer. Like a reset. -- Jeon Jeongguk Before you take the stage everything is so hectic. Because there's a list of songs and a lot of stuff to But the moment I'm in to the stage something changes, right after. There's a current that changes inside my body. Jeon Jeongguk How should I describe this feeling? Should I say, does it boil inside? It's kind of like that. -- Park Jimin they say fun turns to stress when it becomes work. But going on tour like this is more precious than work. Just knowing ARMY. Kim Taehyung Is when the roar is the most intense. It would be lying if I told you there's no pressure. To continue to the end, it is entirely up to us. -- Min Yoongi Of course there is fatigue. Fatigue builds up. We're going full speed, and fatigue, of course, sets in. Jeon Jeongguk When we streamed, there was a lot of inechiation. But some people would give us a break. But not anymore. The eyes and ears of the audience have changed a lot. And the world keeps running. Then we can't dial back. We've come this far, but we can't be complacent. Because a mistake like this is going to be like this out there. Jeon Jeongguk Our work. What we do. Winning a Billboard Award, good performance on the Billboard charts, a tour, a show. Whatever we do, people show interest. They send us support and encouragement. Kim Seokjin What we do has this ripple effect. So not just our songs, but every behavior, we need to be careful. And we have an obligation to do a great performance. Jeon Jeongguk There's pressure. We pass through locations of all sizes, step by step. From AX Hall to Jamsil Main Stadium. What's certain is that it's not easy. They're not ordinary experiences. Think about it. Take someone who's not on that line of work, stand in front of 45,000 people and they'll tremble. -- Min Yoongi I want to take an objective look at myself. I have to be happy with myself and say I'm fine, things are fine. But still, I have this impatience. -- Jeon Jeongguk To be honest, the whole world is watching BTS. Honestly, I say now, I'm enjoying it. I'm enjoying the moment. But there will be difficulties, things I can't tell anyone else. Jung Hoseok All our members have this burning desire. That's why I think we're going to keep going up. You don't have to say it, but we want to sing better. We want to perform better. For our audience, and for the people who listen to our music, we want to move it, move it even further. -- Park Jimin I know so many ARMY have so much love for me. I know, I know, I know. I guess that's why I try even harder. That makes me want more. Kim Taehyung I'm happy when I'm on stage. I think: If I sing this song at a concert, will people like it? I want them to like it. 'How can I tire it out for them to love?' -- Kim Seokjin The more we do this, the more I feel something. Before our debut, I wanted to be a singer because I just liked to dance and sing. But now, when I look back, I have to say that I'm on stage because of the I hope we can share these moments every year, every year. -- Jeon Jeongguk are things I can change and things That I can't change. What I can change, I change. If I don't want to, it's still okay. What I can't change, I can't change. Then it's all right. I'm doing fine now, just the way I am. Then go on, steady. -- Kim Namjoon BTS Bring The Soul: Docu-Series can be purchased through Weverse for \$17.99!
